LEGISLATION TO SHATTER H. C. L.

Opening of Congress Brings Proposed Legislation to the Front that Promises Relief

Two Bills for Food Embargo, Two for Regulation Cold Storage and Reduction of Parcel Post Charges

(By United Press)
Washington, Dec. 4.—Legislative proposals to shatter the high cost of living marked the opening of congress. Representative Fitzgerald introducing four bills as plans for action, two for food embargoes, two for the regulation of cold storage and a reduction of the parcel post prices on food stuffs.

Move Advancement
Adamson 8-Hour Law

(By United Press)
Washington, Dec. 4.—Solicitor General Davis has moved the advancement of the Adamson 8-hour test suit which is now before the supreme court, upon the reconvening of the court this morning.

Investigate Expense
Made by Candidates

(By United Press)
Washington, Dec. 4.—Senator Owen of Oklahoma, says that he will introduce a bill tomorrow for a rigid investigation of the expenditure of all moneys in the presidential campaign just closed, with immunity bath and perjury charges.

Cases Postponed
Pending Action

(By United Press)
Chicago, Dec. 4.—All cases involving the Adamson 8-hour law before Judge Landis have been postponed pending the action of the United States supreme court, and the railroads have been warned to keep faithful records pending the court decision.

MINISTERS BACK UP
PROTESTS ON LOAN

Washington, Dec. 4.—The British, French and Japanese ministers at Peking, it became known here are supporting the bankers of their countries in protesting to China against the \$5,000,000 loan arranged by that government with a Chicago bank.
Members of the former quintuple group which secured a practical monopoly of Chinese loans for administrative purposes through the loan agreement of April, 1913, complained recently in Peking against the new American loan on the ground that it violated that agreement.

GREEKS PROTEST
TO UNITED STATES

Washington, Dec. 4.—A note denouncing as "a serious infringement of sovereign rights" the allied demand for surrender of Greek arms and ammunition to the Anglo-French expedition at Saloniki, and pleading for the sympathetic understanding of the United States in the "painful circumstances" surrounding the Greek government and people, was delivered to the state department by A. Vouras, charge of the Greek legation.
The communication sets forth at length the efforts of Greece to maintain neutrality and gives notice that the Greek government "has rejected and will continue to reject this last demand."

ASQUITH ADVISES
FOR NEW CABINET

Will Tell King George to Reconstruct Government.

LLYOD-GEORGE'S THREAT WINS

War Chief's Ultimatum Forces Act of Premier—Resignation Hinged Upon Granting Demands for a Smaller Council.

London, Dec. 4.—Premier Asquith has decided to advise the king to consent to the reconstruction of the government. This was announced officially here. The statement says: "The prime minister, with a view to the most effective prosecution of the war, has decided to advise His Majesty the king to consent to the reconstruction of the government."

Consent Only Formality.
The king's consent was a formality and the work of reconstruction promptly began.

Nothing is known at the moment on which to base a precise interpretation of the official statement respecting "the reconstruction of the government," obviously a somewhat wide term in the circumstances, and whether it means a mere reshuffling of posts or something more drastic is not yet apparent.

Lloyd-George in Control.
David Lloyd-George, who evidently is the moving spirit in the whole crisis, has not offered his resignation to Premier Asquith, it is now definitely stated, but he has threatened to resign in certain contingencies. The political correspondents concur that the crisis will result in the constitution of a small war council of four or five members, advisers for a more vigorous prosecution of the war.

ROUMANIAN DEFENSE
TIGHTENS; FOES NEAR

London, Dec. 4.—Roumania still holds the center of interest in the world war. The encircling movement of the Teutonic allies continues to draw closer toward her capital, Bucharest, although the Roumanians apparently are stiffening their defense. At one point the invaders are in cannon range of the city.

The Teutons have crossed the Argechu river west of Bucharest, but both Petrograd and Bucharest assert that southwest of the capital, the Russians and Roumanians fighting together have forced the retirement of the Teutons and taken prisoner and booty. The German official communication says that in this region a Roumanian force was outflanked and thrown back with heavy casualties.

On none of the other fronts has there been any great infantry activity. An attack by the entente forces northwest of Monastir Saturday was put down with sanguinary losses, according to Berlin.

The Italians are claiming an advance of 300 meters over a front of two-thirds of a mile on the Carso sector of the Austro-Italian front, a maneuver which straightened out the Italian line.

Unofficial advices from Athens are that the fighting there between Greeks and entente troops has ceased and that the entente troops have been sent back to Piraeus.

Germans Bombard
Bucharest Sunday
at 11 Mile Range

(By United Press)
Copenhagen, Dec. 4.—Newspaper dispatches from Berlin say that the Germans began the bombardment of Bucharest from a range of 11 miles on Sunday.

German Troops Friday
10 Miles of Bucharest

(By United Press)
Headquarters Field Marshall Von Mackensen, 50 kilometers from Bucharest, Dec. 4.—The German troops on Friday were within ten miles of Bucharest, the retreat on Thursday and Friday was so precipitated that the Germans lost touch with them. The officers say the morale of the Roumanians is completely broken and they are not expected to be able to seriously defend the city of Bucharest.

Greek Minister
London Resigns

(By United Press)
London, Dec. 4.—The Greek minister at London has resigned because of his inability to agree with his government in refusing to surrender arms to the allies.

Withdraw Intended
Treasury Issue

(By United Press)
London, Dec. 4.—Counselor of Exchequer McKenna announced in the house of commons the withdrawal of the intended issue of British treasury notes proposed to be floated through Morgan & Co. in America. He said this follows the warning of the United States federal reserve board to bankers not to stock heavily on these securities.

Failure to Report
Does not Violate

(By United Press)
Washington, Dec. 4.—The supreme court has decided that a failure to report the violation of the hours of service law to the interstate commerce commission does not violate the intent of the act, even if the failure is mistaken as an interpretation affirming the appeal at court in a judgment of \$500 against the Northern Pacific.

RAILWAY BILLS TO GET FIRST PLACE

Speaker Clark and Leader Kitchin Promise Quick Action.

WILSON CALLS IN HOUSE CHIEFS

Work of Coming Session Talked Over in Conference at the White House. President May Aid in Plan to Forgo Recess at Holidays.

Washington, Dec. 4.—Speaker Clark and Representative Kitchin, majority leader of the house, assured President Wilson at the White House conference that they would do all they could to hasten the passage of railroad legislation at the short session of congress, which begins today.

The president, after his return from New York, summoned the house leaders to talk over with them the legislative program and to secure their cooperation in expediting important measures.

Rail Legislation First.
Legislation to supplement the Adamson railway wage law, he said, was of utmost importance and he asked that this be given precedence in consideration over all other general legislation.

Realizing that three months is a short period for consideration of general measures when appropriation bills also must be passed, the president asked the house leaders if they thought there would be time for enactment of new railroad laws before March 4. Both told him they thought there would be and promised to exert every effort to economize time on other matters.

May Forego Recess.
Speaker Clark reminded the president that congress would have to pay strict attention to business and asked him to help at the outset to eliminate the usual two weeks holiday recess.

Proposed embargo legislation and issues raised by the high cost of living were not mentioned at the conference. In the opinion of the house leaders, however, the subject is bound to demand attention of congress.

Embargo legislation could not be passed in the house, Representative Kitchin declared.

Mr. Wilson will follow his custom of going before congress personally to read his annual message.

MILLIONAIRE AUTO VICTIM

Pittsburg Oil Operator Dies From Hurts Suffered Near Home.

Pittsburg, Dec. 4.—John Newell, a widely known millionaire oil operator and hotel proprietor, is dead at his home here from injuries received when he was run down by an automobile in front of his residence. Mr. Newell was seventy-two years old.

DRYS PLAN DRIVE ON WHITE HOUSE.

Washington, Dec. 4.—Another effort will be made during the "dry roundup" which begins here next Thursday to commit President Wilson to nationwide prohibition. It was learned that the anti-liquor workers are planning to go to the White House some 300 strong Saturday. Support will be asked at that time.

The citizens of Brainerd will be interested to know the personnel of the Brainerd Symphony and Choral club who present their first concert in the opera house on Friday, December 8th. The symphony personnel is as follows:

First violins—Julius Witham, concertmaster; S. J. Bevan, Effie Drexler, Alfred Dillan, Harold Dorsey, Helen Frost, Kathleen Gemmell, Grace Greeno, John Goedderz, Ethel Hoffoss, Gladys Harter, Allee Johnstone, Mable Lindquist, Mildred Mattison, Lex Palmer, Earl Pilgrim, Franklin Rice.

Bassos—Messrs. G. Berggreen, L. Berggreen, O. Bergmaster, A. Cartwright, F. Cartwright, H. Cook, A. J. French, G. Halvorson.

With a symphony of nearly 70 pieces and a Choral club of over 40, Brainerd ought to feel proud of its musical talent, and no better illustration of this civic pride can be manifested than for each citizen to plan to take in the concert Friday evening.

SEVERE STORM IN THE WEST

Results in Two Known Deaths and Much Property Loss.

Portland, Ore., Dec. 4.—Two lives were lost and heavy damage was done to property at various Oregon and Southern Washington coast points in the first heavy gale of the winter.

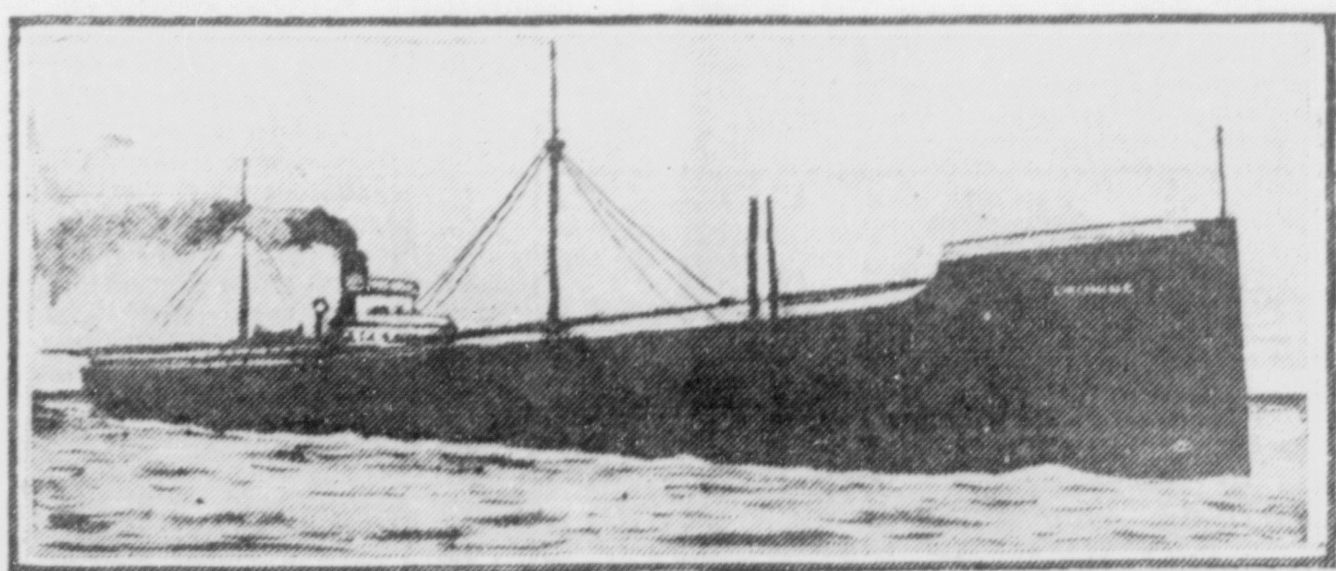

Oscar Johnson, a sailor, was blown overboard from the steamer Newburg off Coos bay and drowned. Hans Reim, steward on a dredge, was crushed beneath a falling signboard and killed at Hoquiam, Wash. The velocity of the wind was seventy to eighty miles an hour.

At Newport, Ore., chimneys were blown down and shingles ripped off roofs.

At Marshfield small craft were torn from their moorings and beached.

At Astoria and Seaside, Ore., sidewalks were upturned, windows and roofs suffered.

American Ship Torpedoed by Submarine Sank With Flag Up

The Chemung, owned by an American firm, was sunk off Cape Gata on the coast of Spain by a submarine flying the Austrian flag. Captain John L. Duffy refused to haul down the American flag when ordered to do so by the submarine commander. All members of the crew were saved.

(By E. J. G.)

Ever since the monkey evolved the
idea of using a coconut as a source
of amusement by passing it around to
the many hands in a group, basket-
ball has been one of the leading in-
ter-scholastic contests.

Brainerd high school has not sunk
into utter oblivion during the past
sorrowful athletic season. Oh; no,
the boys of the B. H. S. have already
donned the abbreviated uniforms and
are sure showing "some speed."

According to the spirit entertained
by Little Falls enthusiasts "Brainerd
hasn't got a ghost of a show." Brainerd
will not say whether they are go-
ing to trim them or not, but just
watch our speed. Mr. Reader, we
give you the opportunity of making
your own opinions.

Along the line of development of
basketball material, we might add
that the annual inter-classic basket-
ball games have been on for the past
few weeks, with the revival of some
great material and the bringing to
view of some other wonders. Among
the men trying out for positions on
this year's team are Captain Warner,
Falconer, Reis, Olson, Peterson, L.
Koop, Lawrence, Crosswell, Cunning-
ham, Fox, Thompson, Somers, Lager-
quist and Nyland.

Variety is the spice of life so the
chosen members of the basketball
team of 16-17 will be known as the
"K. A. U." or "Knights of the Abbrevi-
ated Uniform" instead of "Flying
Squadron" as they were registered on
the hotel register of every hotel they
stopped at last season. It is not
definitely decided but it is thought
that the emblem for this aggregation
will be "BYD."

Coach Kimball is again in charge
of the basketball team. He is the
same coach who last year put Brain-
erd on the basketball map and almost
sent the "Flying Squadron" to Carle-
ton. Mr. Kimball stated that the
outlook was as good if not better than
last year and he looked for a very
good season. Competition for posi-
tions on the team is very strong—
another indication of a fast aggrega-
tion. Captain Warner played at cen-
ter last year and was elected captain
of this year's team.

The inter-class games that have
been played are:

Nov. 17 Sophomores 27, Freshmen
5; Nov. 20, Seniors 13, Juniors 9;
Nov. 22, Seniors 28, Sophomores 12;
Nov. 24, Juniors 24, Freshmen 8;
Nov. 27, Juniors 25, Sophomores 11;
Nov. 29, Seniors 34, Freshmen 10.

The games yet to be played:
Dec. 4, Seniors-Sophomores; Dec. 6,
Juniors-Freshmen; Dec. 8, Juniors-
Sophomores; Dec. 11, Seniors-Fresh-
men; Dec. 13, Sophomores-Freshmen;
Dec. 15, Seniors-Juniors.

The class averages are favorable
for the Seniors who have the average
of 1000 percent, the Juniors are next
with an average of 665 2-3 percent
and the Sophomores are next with an
average of 333 1-3 percent while the
Freshies bring up the rear with three
ciphers and a percent mark after
their name. This series promises to
be one of the most interesting series
in the history of the B. H. S. The
year before last a large pennant was
purchased which bears the inscrip-
tion "Inter Class Basketball Cham-
pions." This pennant is placed in
the room or on the side of the as-
sembly where the winning class sits.
As Freshmen they won it, as Sopho-
mores they retained and now as Jun-
iors it looks as if they were doomed
to fall before the mighty onslaughts
of the Seniors.

No admission is charged for these
games and everybody is invited to

It is an old superstition that one must take a
drug for every ill, but the people are gradually
breaking away from it. Have you ever stopped to
think, How, and in what way, drugs can cure?

What intelligence is there in a bottle of med-
icine, or a box of pills? Compare them with
nature. How can they possess the knowledge
of building a cell in the human body? Can
drugs mend broken or misplaced bones in your
body?

I say emphatically NO. Nature alone with the

work. Investigate and be convinced.

THANK OFFERING A BOUNTIFUL ONE

Unique Feature of Services at First Baptist Church on Sunday

THE OFFERING YIELDS \$90

Chest Was Receptacle for Donations. Opened in Evening and Counted

A unique feature of the service at the First Baptist church yesterday was the taking of the "Thank Offering" which has come to be an annual feature in this church at Thanksgiving time.

The offerings were brought in small envelopes and placed in a special chest prepared for the purpose and placed at the altar. Practically everyone in the congregation from babies to the oldest, took part in this offering of thanks.

The chest was kept locked during the day and no one knew what was in it until the close of the evening service when it was counted and the amount reported to the people who had been guessing what it might be. The committee reported that last year the amount of the offering was \$44 but that this year it had been more than doubled, the amount in the chest being \$90.00. The happy congregation broke out in singing "Praise God From Whom All Blessings Flow."

First Vesper Service

The first vesper service held at the First Congregational church yesterday afternoon brought out a large attendance, it being far beyond the expectations of the officers of the church.

The service commenced at 4:30 and closed at 5:25. The vested choir rendered some very beautiful musical numbers which helped to make the service most worshipful.

The minister, Rev. G. Phil Sheridan, preached on the theme, "Jesus as a Teacher," and showed that Jesus stands before the world as its Master teacher because of His method, his manner and his message.

In answering the question as to what he thought of the service Rev. Sheridan said: "I am very well satisfied; indications point to success and I believe the service at this hour will fill a long felt want. Personally I can say the congregation at 4:30 is more alert and receptive than at the regular evening service. And in addition yesterday's service proved to us that we can serve a much larger parish at this hour." Of course this is the first service but in spite of other attractions the congregation was large. I am most anxious that throughout this month this service will be largely attended.

Later on in the week Mr. Sheridan will publish the theme of his sermon for next Sunday's service.

Meetings Postponed

The meetings to be held in the Seventh Day Adventist church on Seventh street south have been postponed on account of illness. The announcement is made however that Dec. 15 to 17 inclusive Elder White will be in Brainerd and that meetings will then be held.

Peoples Congregational Aid

The Ladies' Aid society of the Peoples Congregational church will be entertained on Wednesday afternoon by Mrs. George Wilson and Mrs. Earl Caird, at the home of Mrs. Wilson, 1395 Mill street. A cordial invitation is extended to all.

Bridge Club

The Bridge club will be entertained Tuesday afternoon by Mrs. R. J. Hartley and Mrs. Irma Camp Hartley at the home of the former.

Mrs. Elizabeth Armstrong Andrews will entertain at a private recital this evening a party of forty or more guests at her home.

THE WELL GOWNED WOMEN

Miss Elizabeth Shaul to Lecture on Corsets Accentuating Best Lines

Miss Elizabeth Shaul of Chicago, is in the city this week in the interest of the H. F. Michael Co's. corset department. Miss Shaul's specialty is in acquainting women with the model of corset which will accentuate their best lines. She will be pleased to meet and talk with women about their corsets any day during this week.

Wednesday evening at 8 o'clock Miss Shaul will deliver a free lecture to women at the H. F. Michael Co. store. While she is representing the Bon Ton corsets her intent that evening will be to talk about the fitting of corsets from a scientific standpoint. She has given this lecture in many stores in the cities and it has been attended by large numbers of women.

Kissel-Ring

Edward Ring and Miss Stella Kissel were married at St. Paul at the church of the Assumption on Tuesday. Their attendants were the bride's brother, Daniel and Miss Genevieve Daley. The bridegroom came from Wabasha and is now farming near Brainerd, where they have gone housekeeping. The Dispatch joins in wishing them unbounded happiness and prosperity.

DeCent-Fabyan

Joseph P. Fabyan and Miss Veronica DeCent were married today at the court house, Judge J. T. Sanborn officiating. The witnesses to the pleasing ceremony were Miss Esther E. Theorin and Mrs. Ella H. Polk. Best wishes follow the happy wedded pair who will make their residence near Crosby.

The Salvation Army

At the Salvation Army tonight will be conducted a special meeting. Staff Captain Kiddle will be with us from Minneapolis. If you want to enjoy yourself don't fail to attend this meeting. The staff captain has been here before and endeared himself to many, and if you would like a seat come early.

Monthly Business Meeting

The regular monthly business meeting of the Peoples Congregational church will be held Wednesday evening after the prayer meeting. All members and officers are requested to be in attendance. The first chapter of Nehemiah will be the lesson at the prayer service.

Gimpes For Children.

Gimpes are coming into vogue again for children. The practical wash fabrics are still to be among those popular with the smart little folk. Little plaid skirts seem to be used on practically every model, even on the smallest child. Some have the jackets slipped over the head or buttoned on the shoulders. Gimpes, which have often been made for little folk from their mothers' shirt waists, will be of much use to them this season, since practically all have the little white sleeves and yoke of lawn, linen, batiste, organdy and other sheer materials. For the fancy dresses georgette is used.

THE LATEST FUR.

Cafe au lait fur is the latest, the soft light brown shade harmonizing well with fashionable brown toned costumes. The real name of the fur is summer ermine, which is really in the prettiest cafe au lait shade with white markings. The ermine changes his snow white coat to one matching the rocks during the warm season, when he must forage for his dinner against a background not all arctic white.

Echo of Orpet Case.

Chicago, Dec. 2.—Announcement that W. E. Fischer, forester of the Boston park department, has accepted the superintendency of the estate of Cyrus H. McCormick at Lake Forest, is the last echo in the famous Orpet tragedy. The position was held by the father of Will Orpet, tried for the death of Marion Lambert. The Orpets are now in California.

Harvey Rice to Wrestle Henry Karhunaari on Thanksgiving Night

—Other Crosby News

Crosby, Minn., Nov. 30.—Miss Eva Miller, English instructor in the local schools, has inaugurated a "Better Speech Week," to call attention to common grammatical errors in speech.

H. B. McConnell, recently in the hotel business in Bemidji and previously located in Brainerd, has taken charge of the Spalding hotel dining room.

To aid then in their diamond ring contests, Miss Dora Perrault and Miss Rose Hennick each gave a dance. Roy Kuno, 7 years old, lost three fingers while investigating a dynamite blasting cap.

The total enrollment in all the school classes is close to 100. All of the courses are popular. For the benefit of the mine workers unable to attend the night sessions, afternoon classes are again offered this year.

The Crosby Mothers' club had its poor fund increased \$45 by the proceeds from the benefit at the moving picture show.

Harvey Rice, of Crosby, champion middleweight wrestler of central Minnesota and Henry Karhunaari, well known Finnish wrestler of Brainerd, will wrestle to a finish on Thanksgiving night.

The annual Christmas sale and supper of the Methodist Ladies' Aid society, will be held on Thursday, December 14.

W. H. Bamberg has returned from a business trip to Minneapolis.

F. M. Shook, of Aitkin, was in town.

Ben A. Mizen has returned from a business trip to Minneapolis.

Miss Margaret Crosby, of Duluth, has been a guest of her brother and the latter's wife, Mr. and Mrs. Geo. H. Crosby, Jr.

The Crosby dancing club gave a dance Saturday evening.

Mrs. P. N. Haughtelin entertained at cards on Thursday afternoon. Mrs. William C. Deering won first prize and Miss Grace Holt second honors. Yellow chrysanthemums were used in the decorations.

Miss Hazel Stevens is visiting in Hibbing.

Mrs. R. B. Jacks has returned from Princeton where she visited her parents.

Miss Elsie Groetsch, of St. Paul, is a guest of her sister, Mrs. A. C. Bosel.

The Working Child.

[Prepared by the children's bureau.] All the speeches on child labor made in congress since the first federal child labor bill was introduced in the spring of 1906 and other printed arguments for and against federal control of child labor which had appeared before June 30, 1916, are listed in two sections of the bibliography on child labor just issued.

Material on practical experiments in training children for industry and in guiding a child to the trade where his opportunities are best and material on the effect of premature labor on the child's health form special sections. Previous bibliographies on vocational training and vocational guidance and other subjects related to child labor, such as mothers' pensions, minimum wage and compulsory education, are noted in the bibliography.

See Miss Shaul

Miss Elizabeth Shaul of Chicago will be at our corset counters all this week. She will give the benefit of her knowledge in the scientific selection of corsets to any woman calling at this section.

We urge the women of this community to see Miss Shaul. She will deliver a free lecture to women upon the science of proper corsetry on Wednesday evening at our store.

Aid association, and Dr. Charles J. Hatfield, executive secretary of the National Association for the Study and Prevention of Tuberculosis, New York.

In addition to the money which the committee will spend in Framingham, that city has agreed to cooperate by improving its public facilities for work under the direction of the committee. The leading citizens of Framingham, as well as the state department of health, Harvard University, the Massachusetts Institute of Technology and other schools, have offered their help in the demonstration. As part of the plan, it is proposed to place under definite control every living case of tuberculosis, both those that are demonstrably so and those that are suspected of having had contact with the disease.

As a result of this demonstration, it is planned later to use the experience in Framingham in other cities of the United States, to show that

tuberculosis can be controlled anywhere.

Some Beauty Don'ts.

Don't wear thin shoes and gossamer silk stockings in cold weather or Nature will take her revenge and you will have that pinched, chilled look that is so unbecoming. Don't economize in shoe leather. Don't take everything but exercise and then complain that you are growing stout. Exercise, even if the weather is bad, by preparing for it. A brisk walk on a cold day is a splendid complexion beautifier.

Don't fail to dry your hands thoroughly after washing if you wish to prevent them from getting chapped. Don't forget to wear a veil if your skin is susceptible to cold winds. Don't wear any heavy headgear. It is very hard on the hair. Don't let your rooms get too hot and never sit in a room that gives you chills. Have plenty of heat and keep a window open a little at the top.

A long walk will take away that tired, worn look so many women have.

JONES sometimes wakes up feeling cross and in consequence the family know it without his telling them in so many words.

Mrs. Jones attributes it to biliousness and if it doesn't wear off during the day she gives him a dose of liver medicine at night. The next morning he feels better and she gives him coffee for breakfast,—and the next morning,—and the next morning. And in a few days Jones has another spell.

Dear Mrs. Jones means all right, but she doesn't seem to realize that if she didn't give Jones his morning coffee she wouldn't have to give him the liver medicine and Jones would feel all right without both.

Housewives everywhere have found out that *Instant Postum* takes the place of breakfast coffee perfectly. And that is only one of the reasons why *Instant Postum* has wholly supplanted the use of coffee on thousands upon thousands of American breakfast tables.

The price of hot water per cup has been increased to two cents in New York restaurants. The rise does not apply to baths, however, for milk and sugar is eliminated from the tub.

"Make everyone happier," is a good slogan to adopt and especially at this season of the year, and George W. McCree, a gentleman as well known in this section, as any other Minnesotan, has put the slogan to practical use by starting a popular subscription to which all who have appreciated "Larry Ho," whose every day name is Lawrence Hodgson, in years gone by can subscribe and participate, and testify that they are believers in "Keep not your kisses for my dead, cold brow" in this instance. "Larry Ho" is in full life and vigor and his friends all hope he will be for years to come, dispensing good cheer over Minnesota and the north-west. Mr. McCree's communication appears in today's news columns of the Dispatch, and we hope all who read it will catch the spirit in which it is written.

RUSSIAN PREMIER
 HOOTED IN DUMA

Petrograd, Dec. 4.—When Premier Trepoff mounted the tribune in the duma to read a government proclamation members of the Socialist and Labor parties began such a hostile demonstration that the premier was unable to speak for a quarter of an hour. Three times M. Trepoff appeared on the tribune, but each time the turmoil forced him to leave.
 Finally the president of the Duma procured the adoption of a proposal that twelve members of the two parties, including their leaders, be expelled for eight sittings.
 This demonstration is taken to mean that final settlement of the dispute between the government and representatives of the people, relieved temporarily by a partial change in the ministry, still is far distant.

NEW DIVER EXPLOIT COMING

Providence Paper Has Strange Tale of Threatened Crisis.
 Providence, R. I., Dec. 4.—The Providence Journal will tell of two of the newest and most powerful German submarines, now off the Atlantic coast.
 They are the survivors of four that started from Kiel on Nov. 5. The other two were sunk by British patrol boats.
 Last Wednesday the German embassy at Washington received from Santiago, Cuba, a complete report concerning the whereabouts of these two submarines, and the German ambassador has been in almost hourly communication with his government through the wireless at Saville.
 President Wilson is aware of the presence of these two submarines and also of the U-53, which never returned to Germany, and has warned Ambassador von Bernstorff that any repetition of the activities of the U-53 will result in a rupture of relations with Germany.

NEW REPAIR SHOPS
 AT MANDAN, N. D.

Construction at that Point to Handle Increased Business of the Northern Pacific Road

TO BE WATCHED WITH INTEREST

Details of the Construction Work Not at Hand—May Decrease Amount of Work in Local Shops
 An announcement given publicity that the Northern Pacific railway company is to build repair shops at Mandan, N. D., costing \$1,500,000 is of deep interest to Brainerd.
 It appears that business has increased to such an extent as to render additional shops necessary.
 Its effect on the work allotted to the Brainerd shops will be watched with interest, as there may be such a thing that the Mandan shops may decrease the amount of work given the Brainerd shops.

SCENES OF WRECKAGE

Wm. Thomas, Returning From Trip on 13th Street Road, Saw Evidence of Collisions
 Wm. Thomas, who makes frequent trips on the 13th street road, says that in addition to the crop of beer bottles being tossed around indiscriminately in the road and on farmers' lands, are the evidences of various collisions on the road.
 One finds scraps of hayracks, sections of buggies, etc., along the road, mute evidence of where somebody's car bumped a piece out of some farmer's hayrack or buggy.

THREE DEAD, ANOTHER DYING

Result of Building Accident in Rochester, Minn.
 Rochester, Minn., Dec. 4.—Three workmen were killed and a fourth mortally injured here when a large terra cotta cornice stone, weighing three tons, fell from the top of the new Masonic temple, a distance of fifty feet, carrying two of the men with it and striking two others who were working directly below. Scores of passersby witnessed the accident. The temple is just being built.
 The dead are: Robert Mortensen of La Crosse, Wis.; Louis Bang of Rochester, and Arthur Kruger of Mankato.
 Andre Crawford of Chicago suffered broken legs and a crushed head. He will die, physicians say.

Kelly-How-Thompson Co.
 Remember "Hickory" Hines

In these days when many assail corporations and claim they have no bodies or souls, that they look for dividends, well it's comforting anyway, to say the least, to read a letter from a sales manager addressed to a traveling man in the ranks, which just breathes good cheer and helpfulness and carries a present that pleased the good wife too.
 The letter was penned by Kelley-How-Thompson Co's. sales manager, W. H. Rattenbury. The Duluth firm is known wherever hardware is used, and their salesman at Brainerd, J. T. Hines, has been dubbed "Hickory," which is the firm's hardware mark and known all over the northwest.
 November 28 Mrs. Hines got this letter from the sales manager:
 "When Joe was up the other day something was said of Thanksgiving and he stated that he expected to spend the day at Wadena.
 "It seems to me that Thanksgiving day should properly be spent at home, and I told him that if he would alter his arrangements so as to remain in Brainerd Thursday I would send down a turkey.
 "Now I am not in position to pick out exactly the kind of fowl that would most appeal to you, and am going to ask as a favor that you select the turkey you want and send the bill for it.
 "I trust that Thanksgiving day will be a very pleasant occasion for you and yours."

Annual Government
 Expense Estimate

Washington, Dec. 4.—It will take \$1,654,819,654.03 to run the government of the U. S. from June 30, 1917 to June 30, 1918.
 This is the estimate of the heads of the various branches of the government of the country submitted to congress today through Secretary of State McAdoo. Of this grand total of more than a million and a half dollars, the various establishments estimates are set forth as follows:
 Legislative, \$7,691,626.45; executive, \$32,929,365.96; judicial, \$1,395,790; department of agriculture, \$26,096,075; foreign intercourse, \$5,700,626.66; military establishment, \$300,694,684.52; naval establishment, \$366,076,651.67; Indian affairs, \$12,230,356.67; pensions, \$155,560,000; Panama canal, \$25,000,000; public works, \$145,118,394.46; postal service, \$325,355,820; miscellaneous, \$106,914,738.93; permanent annual appropriations \$143,864,730.32. The total estimates for the needs of the government during the next fiscal year exceed by \$87,957,559.98 the amount appropriated for the fiscal year ending June 30, 1917.
 With the exception of the postal service the needs for defense and preparedness was shown in the report, constitute the largest single items.
 For the pay of the navy \$51,023,776.15 is required, exclusive of that of the marine corps, which requires \$7,133,092.78. For the shipbuilding program for the year 1916-1917 \$200 is asked and \$5,133,000 will be necessary for extending the aviation branch of the service. For increase of navy heretofore authorized \$118,946,155. It is estimated, will be needed.
 Provisions and clothing for the marines, it is estimated, will cost \$6,225,385 and provisions for the navy \$10,144,943. For ordnance and ordnance stores \$9,402,485 is required and for organizing the naval reserve force and schools and camps of instruction \$160,000. A single item for bringing home the remains of officers and men who die abroad amounts to \$32,658.
 Needs for pay and traveling and general expenses of the army is listed at \$97,794,995.56 and for signal service development \$16,600,000 is asked. The greater portion of this is for aviation. The estimate for supply, services and transportation of the army is \$71,741,786.15.
 A total of \$200,000 is asked for vocational training in the army and for ordnance, ordnance supplies and stores \$14,315,000 is asked.
 For the manufacture of arms \$6,805,000 is the estimated need; for the purchase of automatic machine rifles \$2,065,000; for armored motor cars \$1,508,000. Civil military training camps require \$3,591,000.
 Among the estimates for the equipment of national guard:
 Automatic machine rifles, \$6,868,000; field artillery, \$10,000,000; ammunition for field artillery, \$10,200,000; arms, uniforms, equipment, etc., \$4,576,000.
 Supplies and exchanging infantry equipment \$800,000, and for arming, training and equipping the national guard \$12,727,000.
 National guard \$12,072,000. For quartermaster supplies, equipment, etc., for a reserve officers' training corps \$4,385,000 is asked.
 The war department asked for \$56,999,481.21 for fortifications and other works of defense and \$32,136,063.32 for rivers and harbors.
 The interior department wants \$8,283,000 for the reclamation service

and the department of commerce asks \$2,604,300 for lighthouses, beacons and fog signals. The need of the coast guard are estimated at \$6,286,071.
 For maintenance of the interstate commerce commission \$5,600,000 is needed.
 The war department requires \$325,620 for national cemeteries, \$210,000 for artificial limbs, while the interior department wishes \$10,590,672.09 for the construction and operation of railways in Alaska.
 The expenses of the U. S. courts are estimated at \$7,769,736.
 To pay the salaries and mileage of senators \$771,000 is required, and to cover the same items for members of the house \$1,479,500.
 The general salary account of the senate amounts to \$893,687.50 of the house \$1,335,702.75.
 A contribution towards the expense of the peace palace at the Hague amounting to \$1,045.25 is listed among the needed items.

 In the case of Charles J. Johnson vs A. M. Botz the jury found for the defendant.

U. S. AGENTS TO QUIZ
 HEAD OF LOAN CHAIN

Chicago, Dec. 4.—Agents of the department of justice will go to Reedsburg, Wis., to begin an investigation to learn if the fortune of Mrs. C. M. French, nominal head of an immense chain of loan agents' offices, has been built up through any violations of the postal or interstate commerce laws. Announcement of the investigation was made by C. E. Clynne, United States district attorney here.
 Mrs. French is the mother of Frank J. Mackey, socially prominent here and in Europe and at one time credited with having been the companion of King Edward VII. on several occasions.
 Attention to the French fortune was drawn by Federal Judge Landis in the examination of several persons whose inability to keep up interest charges had brought them to bankruptcy.
 Word from Reedsburg was that Mrs. French, who is more than eighty years old, could not be questioned owing to her advanced age. She was said to know little of the sources of her income.

CONGRESS EAGER
 TO BEGIN WORK

Will Hustle Through Formalities to Begin Business.

SENATE LOSES FIRST DAY

Will Adjourn Out of Respect For Late Senator Clarke of Arkansas—Democrats Hope to Win Control of House. The South is Enjoying Unprecedented Prosperity.

By ARTHUR W. DUNN.
 Washington, Dec. 4.—[Special.]—The opening day of a session in December is always more interesting than a called session following another quickly in the spring. Although the regular session of congress lasted until September, there has been a lot of history made since that time, and the members of both houses came together just as if there had been a long vacation since they were here.
 After a presidential election the senators and representatives have much to talk about, and there is more this year, as the election was full of surprises.
 The first day—in fact, for a few days following the opening—there is nothing much said among members of congress except to tell how it all happened. These are days of explanations. However, there are not so many members among the defeated as in former years. Although it was an election of upsets, many congressmen have been re-elected.

Getting to Business Quickly.
 The most important development of the session is the determination to get down to business without delay and take up the pending questions and push them along as rapidly as possible. There will be few early adjournments and not many days wasted, save as time is wasted in talk.
 The formalities make it necessary to lose the first day. The senate will adjourn promptly out of respect for the late Senator Clarke of Arkansas. In fact, neither house can do anything until the message from the president is received.

Democrats Confident.
 It sounds like the late campaign to talk about Democratic confidence, but this refers to the organization of the next house. The dominant party believes that the independents will join them in effecting the control and organization of the next house. In the first place, there is quite a progressive tendency among these independents, and the Democratic party is called progressive—almost as progressive as the party which bore the name for a few years. Then the independents are likely to receive favors, both at the hands of the administration and in house patronage. So there may be reason for Democratic confidence.

Champ Clark Cheered.
 The members of the house of representatives certainly like Champ Clark. The cheers which he received from his colleagues were hearty and earnest. Not in years has there been a speaker so personally popular as Champ. Uncle Joe Cannon had friends, but as he was the leader of his party as well as speaker he had partisan opponents who never showed him much friendship. Under the new methods in the house the speaker has nothing to do but to be a nonpartisan presiding officer, and Champ has been that for six years, making friends all the time.

Will Miss Roberts.
 Republicans are regretting the loss of Ernest W. Roberts of Massachusetts. He had been so long a member that he seemed to be a fixture. He was one of the strong men on the Republican side. As a member of the naval committee he has had much to do in shaping naval legislation.

Republicans Indifferent.
 Quite a number of Republicans are indifferent as to whether they should organize the next house of representatives unless the final returns and contests in the courts give them a clear majority. Congressman Rodenberg of Illinois voices the sentiment of quite a number when he says that as long as the Democrats have the other branches of the government they might as well have the house and take full responsibility.
 Other Republicans do not like the idea of taking control by making agreements with the several independents. They prefer that such deals should be made by the party in power.

South Rejoicing.
 Southern men are in a jovial frame of mind. They not only have carried the presidential election, but cotton is bringing such prices as to scatter wealth throughout that region, and the people at home are as happy as the politicians in Washington. Happy homes make the representatives of the people happy. There is no such demand for political places as there is when times are hard. Great is cotton when it's king.

New Legislation.
 Judging from the number of bills introduced, the senators and representatives have been doing something besides campaigning since congress adjourned. Most of the bills are for the purpose of curing the evils which are supposed to beset the country at the present time, as well as to provide better times than the people are now enjoying.

ELKS REMEMBER ABSENT BROTHERS

Memorial Services Held at the Brainerd Opera House by Brainerd Lodge No. 615

ADDRESS BY W. S. McCORMICK

Note of Hope and Thanksgiving in Inspiring Speech of Grand Esquire From Duluth

Brainerd Elks Who Passed Beyond in Year

Thomas Edward Canan
Selwyn P. Coffrain

Brainerd Elks remembered their absent brothers on Sunday afternoon, December 3, at the Brainerd opera house, where exercises of a character befitting the solemnity of the occasion were carried out, a large audience being present.

The Elks formed in a body at their hall and marched with over 60 in their ranks, to the opera house and were seated in a body in the parquetry. The stage was beautifully decorated with evergreens and potted plants.

The curtain arose and disclosed the officers of Lodge No. 615, and those to take part in the program seated in a half circle. At the center and to the front was the altar with the open Bible, reposing on the American flag. The colors of our country were in evidence everywhere.

An orchestra composed of Wm. Graham cornet, Edwin Harris Bergh and Julius Witham violins, Miss Cecil Witham piano and Wilfred Canan cello, played the processional. The simple yet impressive ceremonies of the lodge were exemplified, and the opening ode to the melody of "Auld Lang Syne" was sung.

Rev. H. G. Stacey, rector of St. Paul's Episcopal church, offered prayer.

Mrs. Elizabeth Armstrong Andrews sang a soprano solo, her accompaniment being played by Mrs. Walter F. Wieland. Her voice was clear and sweet and its soft tones fell like a benediction.

R. R. Gould, who spoke of "Our Absent Brothers," said in part:

"We meet today for what is usually known as the Elks Memorial; what is more tenderly known among the brethren as the Elks lodge of sorrow.

"The Elks lodge is wholly American in character and patriotic and benevolent in purpose, hence our use of the American flag as one of our principal decorations. It is first in our hearts as loyal Americans, and on our altar as loyal Elks. It is in itself a beautiful emblem, but we love it as loyal Americans for what it represents; not that we consider America perfect, but that it is our home, and while all great nations, governing large numbers of people are more or less imperfect, being of necessity no better than those who constitute them, we believe America today to be the best, the most charitable, the nearest just, of any of the great nations of the world.

We love the flag as loyal Elks, for to us it stands for one of our principal tenets, charity, which together with Justice, Brotherly Love and Fidelity, form the chief precepts of our order. From a brotherhood devoted to these precepts we gather inspiration to a life of gentleness and honor, which will write our names not only upon the memorial tablets within our temples, but also in the hearts of a grateful humanity.

Sorrow is essentially a thing of the past. We are often told that it is not good to live in the present to the full, or to consider the lessons of experience. Therefore on the first Sabbath of each December the benevolent and Protective Order of Elks bids its members stop and pay due reverence to its honored dead, and to take thought particularly of the lives of those of our members who have been called from us during the past year. We are met with the great truth that they will not return to us, but that we shall go to them.

The faults of our brothers we write upon the sands—that they may be forgotten and not copied; their virtues upon the tablets of love and memory—that they may be remembered and emulated.

On February 1st Brother Thomas Edward Canan was called to his reward. He was born in Michigan about fifty-five years ago, and came to Minnesota after he had grown to manhood. He was a member of numerous orders, being a charter member of Brainerd lodge number 615. For several years prior to his death he, with his family, consisting of his wife and eight children, all of whom survive him, have lived in Jamestown, N. D.

He was a man young by nature, one of the kind whose spirit does not grow old. He was fond of social life and a lover of many sports. As one of our brothers recently said to me, "If you got Tom Canan on the committee, the affair was sure to be a success." More than this, he was a helpful, benevolent disposition and deeply devoted to his religious belief.

Brother Selwyn Preston Coffrain was born on a farm near Waukon, Iowa, Aug. 20, 1875. He served in the Spanish-American war, after

HAD BROTHER IN CROW WING

Angus Chisholm, aged 55, homesteader who was shot near Blackduck as he was carrying out a deer, is in serious shape, as the bullet struck his left shoulder and lodged near his spine and may permanently paralyze him.

Chisholm has a brother, John, who lives at Crow Wing. Two sisters, Mrs. P. J. Russell and Mrs. Fred Brinkman, live in Bemidji.

which he returned to his birth place. After living temporarily in several other places, he came to Brainerd with his family in May, ten years ago. He demitted his Elk membership from St. Cloud, and joined old 615. Thereafter he was a faithful member among us until the unfortunate accident of Oct. 15th.

It is one of the pleasant recollections that I have of him that soon after making his acquaintance I asked him his first name. And his reply rings in my ears yet: "The boys call me Sunny." He was well nicknamed, for the name suggested and reflected the sunny disposition that was back of it. We miss him on the streets, in our places of business and especially in our meetings for initiation, in which he took such an active part. He was a hard worker, supporting his wife and son, and also his mother all of whom survive. Sunny Coffrain was good to his mother. And brothers, there is no higher mark of manhood; he that is true to the mother that bore him, merits the blessing of all good men, and of God above.

During the year another Elk well known in Brainerd, has been called from our midst, Brother John Henry Koop. Owing to the fact that in early life he was quite active in the history of our city, it seems not fitting to pass his memory without mention, but as he was a member of St. Cloud, a sister lodge of the order, we will leave to them his special memorial.

These have done what they could. They have finished their course and gone before us to that undiscovered country. But "to live in the hearts of those we leave behind, is not to die."

A duet, "In Heavenly Love Abiding," composed by Wm. H. Pontius, was sung by Mrs. George D. LaBar and S. F. Alderman and the tones of their voices vibrated through the opera house, words and music alike contributing to carry out the expression of Elks' devotion, love and feeling for humanity. The piano accompaniment was played by Mrs. Walter F. Wieland.

The memorial address was delivered by W. S. McCormick, of Duluth, Grand Esquire of the Benevolent and Protective Order of Elks. Mr. McCormick is remembered by many Brainerd members who heard him speak at the state convention of the order in Duluth last June.

"This is Elksdom's memorial day," said Mr. McCormick. "It is not all a day of sorrow, but also of Thanksgiving. We are thankful to belong to an order which is softening humanity by its teachings."

He said the minds of many were filled with tender memories of the past. Some who had passed away had written their names high on the golden scrolls of fame. Others may not have been so famous, but all had left untarnished records.

It was beautiful and comforting to think that similar exercises were being held in every part of the broad United States, even in far off Honolulu and in Manila, the brothers were gathered together to pay their tribute to the dead.

We love to think of their many fine traits of character. They were brave, tender and true in all their relations, vigorous in their manhood, sending sunshine into all homes. Our hearts went out in sympathy to those who were left behind to mourn.

"The world needs sympathy as much as it does Christianity," said the speaker.

"The way to be happy is to make others happy."

"The door to heaven leads past the door of suffering."

Mr. McCormick, in eloquent language, referred to the man who had not a single friend and related the incident of Talleyrand's career when the French statesman was about to flee to America for safety and a new life and came to a man of America who had his residence at the French inn, and asked him for letters of recommendation.

The stranger arose and said: "I am the only man in the New World who can raise his hand and say 'I have not a friend in all America.'" It was Benedict Arnold, the man without a friend.

"If you have but one friend who trusts and loves you, he is of incalculable value," said the speaker.

Mr. McCormick told the story of Jean Valjean, persecuted and fleeing. He arrived at the bishop's house. Valjean said, "You open your house. You light your candles and I have not concealed my name."

"This is the house of God" said (Continued on page 6)

STORAGE HOUSE GUTTED BY FIRE

Minneapolis Brewing Co. Warehouse on West Front Street in Flames Sunday Afternoon

ORIGIN OF THE FIRE UNKNOWN

Losses Suffered by Owners, also by Lessees Hagberg & Schaefer and Renter James E. Brady

Believed to have started from electric light wires, although the exact cause may not be ascertained, the Minneapolis Brewing Co. cold storage warehouse on West Front street was found in flames Sunday afternoon at 4:30 o'clock and considerable damage was done before the fire was extinguished.

The building, valued at over \$2000 is owned by the Minneapolis Brewing Co. The lessees are Hagberg & Schaefer, who ordinarily carried a large stock of meat in the building. However, much of the same had been used and their loss is confined to barrels of dill pickles, a buggy, sleigh, stove, etc., stored in the structure.

James E. Brady had a carload of non-alcoholic drink stored in the building. Water from the two hose playing on the building, seeped through the ice from above. The roof toppled in. All losses are covered by insurance.

A switch engine pulled out a string of cars and saved them from destruction.

At 7:30 in the evening there was a second alarm, sawdust in the west end of the building igniting from coals and streams were again played on the building.

GRAND COMMANDER COMING

Jesse Norton, of Duluth, Guest of Honor at Ceremonies on Wednesday Evening

Jesse Norton, of Duluth, Grand Commander of the Knights Templar of Minnesota, will be in Brainerd Wednesday to inspect the local commandery.

Eminent Commander D. E. Whitney will be in charge of the local initiations and drill work to be exemplified that evening, the program starting with a banquet served at 6:30 in the evening. The local commandery has a membership of 150.

MAKE "LARRY HO" HAPPIER

To the Editor, Brainerd Dispatch:

The season of Christmas cheer will soon be with us, the season when our minds naturally turn to what we shall do to make someone happier. When thinking along this line I thought of some men whose lives have been spent in the spreading of the message of happiness and naturally my mind reverted to our fellow citizen, Mr. Lawrence Hodgson, known to every Minnesotan as "Larry Ho," as being the greatest exponent of the principal of "Make everyone happier."

Larry has been so long on the delivery end, that I think it is incumbent upon his legion of acquaintances to make him act for once in the roll of receiver. Therefore, I suggest that we, his friends throughout the state, subscribe to a fund to be used to procure for him as a Christmas present, a library of books, allowing him to choose those that will be most pleasing to him. I further suggest that the maximum amount which any one shall subscribe shall be limited to one dollar, so that everyone shall feel that he can be included in the testimonial.

It is needless to say that the most surprised man who will read this letter will be "Larry Ho" himself, because he knows nothing of my intention.

"Larry Ho" has been such a booster for St. Paul that it seems reasonable that his fellow boosters, Mr. N. P. Rogers of South St. Paul, and Mr. Harry J. Lehr of Finch Van Slyke and McConville should take care of this matter. I have forwarded my check for one dollar to Mr. Lehr and suggest that all subscriptions be sent at once to one of the gentlemen.

In the words of that beautiful poem written by a St. Paul man and first published in the Weekly Pioneer, "Keep not your kisses for my dead cold brow." So therefore let us show our appreciation of Mr. Hodgson while he is still with us and can enjoy our gift. Does any one second my suggestion? Yours,

GEO. W. McGREE

SEEKING THE MASKED BANDIT

Authorities of Crow Wing County and Police Searching Man Who Gagged Mrs. F. Forsberg

SHE SUFFERS NERVOUS SHOCK

Intruder Whose Motive Was Robbery, Grappled With Her and Bound Her With Apron

Authorities of Crow Wing county and the police of the city are seeking for the masked bandit who entered the home of Fred Forsberg, 612 Oak street Northeast, and after knocking down Mrs. Forsberg, gagged her and tied her to a bed post.

To aid the authorities in their search, the matter was kept quiet for a time, the assault occurring on Wednesday evening at about 7 o'clock.

Mrs. Forsberg had telephoned a friend, Mrs. Willig, to have supper with them, and the lady had arrived at their home. At about 7 o'clock Mr. Forsberg and Mrs. Willig walked three blocks away to meet the bus at Third avenue which was carrying out Mr. Willig to also join the supper party.

In the time it takes to walk three blocks and back, the bandit entered the home, pulled down the blinds, seized Mrs. Forsberg from behind, tied her to a bed post with an apron belonging to Mrs. Willig.

He asked for money and Mrs. Forsberg told him she had none. He tore off Mrs. Forsberg's apron and gagged her with it.

Just as he had completed tying her the flash light of the delivery boy of Johnson & Roth flickered through the house. The delivery boy was about to enter the house and Mr. Forsberg and Mr. and Mrs. Willig were just to step in when the burglar shut off the lights and passed out to the rear and made his escape.

Mr. Forsberg put in a call for a policeman at 7:05 and says one arrived at 10:15 o'clock.

Mrs. Forsberg did not get a good view of the man, but said he wore a mustache and whiskers. Many believe he was the same man who was taken in custody in St. Mathias township and kept in custody for some time, until Sheriff Gunderson of Itasca county, came down and said he was not the assailant of Olga Dahl, Round Lake school teacher.

Mrs. Forsberg was ill from the shock. In addition to the collapse of her nerves, she also sustained bruises about the shoulder.

PREACHED IN BRAINERD

Rev. S. H. Swanson, of Deerwood, at the Swedish Lutheran Church Thursday Afternoon

Rev. S. H. Swanson, of Deerwood, delivered the sermon at the Swedish Lutheran church on Thanksgiving afternoon. After the service in the church, the congregation gathered in the basement where a short program was rendered.

Rev. Swanson and Prof. Nelson spoke, also A. N. Goldstrand came up and spoke about hunting deer, and he came with a deer and presented that to the pastor from his congregation. This is not the only time the church has remembered the pastor, Rev. Carlson. This goes to show the friendly feeling that exists between the pastor and the church.

It is over five years that Rev. Carlson has been with the church. The work that has been carried on in these years can be plainly seen. The new church and organ, the 500 membership that the church has, and other accomplishments tend to show that Rev. Carlson has been a factor for good.

MANGANESE WANTS WATER WORKS

Much Building Going on in Mangane and Drilling on Outskirts of the Village

SOO STATION ABOUT FINISHED

Peter Nelson to Have Crew of Forty Men—Spur to the McKenzie Mine to be Put in

Manganese, Minn., Dec. 1.—George Leanna, proprietor of the Manganese hotel, has contracted with the Seaford Exploration Co. to put down a well back of his hotel. The drill hole is already down 89 feet. It is the plan to put it down through the surface so as to obtain plenty of good water.

There is talk about town to have city waterworks put in the village in the spring.

E. C. Guetzloff, manager of the Lakeside Lumber Co., has purchased lots 7 and 15, block 4, Manganese, and intends to build two cottages, one on lot 15 has already been started. He expects to move his family to town as soon as his first building is completed.

Among Manganese visitors this week were Barney Burton, clothier of Little Falls, John G. Soderquist of Chisholm, George Grant of Duluth. Mr. Grant will move to Manganese next week and open a barber shop.

J. W. Thompson of Duluth, was in town Saturday.

Capt. J. W. Nichols, superintendent of the Barrows Mining Co., was in town Saturday.

John Wahl, of Duluth, was in town Saturday, also Tuesday, looking after townsite interests. He also examined drilling being carried on west of Manganese.

A large platform is being built in front of the Soo station. It will be open for business in about two weeks.

Mr. Lindquist of McKinley, was in town last week.

Markus Grande has completed the addition to his store building.

The townsite company reports a big business in residence lots for building purposes.

Joseph Philaja's store building on Main street is rapidly nearing completion.

Peter Nelson, the railway contractor of Minneapolis, was in town last week and made arrangements for boarding a crew of 40 men at the Peterson hotel. It is reported that a contract has been let by the Soo railway to build a spur to the McKenzie mine and work is to be pushed so that the mine can get on a shipping basis early in the spring.

Wm. Seaford was in town Saturday and visited his drills west of town.

It is reported that the Hoch and Ferro mines will stockpile all winter.

J. M. Elder, Appointed a Member of the National River and Harbors Congress Cannot Go

James M. Elder who was appointed a member of the National Rivers and Harbors congress which meets in Washington on Dec. 6 will be unable to attend owing to illness. Mr. Elder had intended starting tonight but owing to the development of a severe cold he was prevented from completing the program and on the advice of his physician he will remain at home. He is somewhat disappointed that he will not be able to take up the matter of Mississippi river navigation personally with the members of the congress, many of whom he is well acquainted with, but his endeavors will be used in the matter and he will at once correspond with them and inform them of the benefits to be derived from such action. He will also take the matter up with A. L. Crocker, chairman of the reclamation drainage and flood committee of the All-Minnesota Development association which association will call a conference in Brainerd early in January and the business of which is along the same lines.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

New York, Dec. 4.—An organization of the housewives through which every consumer in this city may reach "wherever it appears necessary to establish a ban on articles of food" will be formed by Jan. 1, it was announced by Joseph Hartigan, commissioner of weights and measures.

The plan is to have at least one woman assigned to each of the 42,000 square blocks here, whose duty it will be to "keep in touch with the residents of that block and keep them posted as to prices of the various articles of food."

BANDIT LEADER QUILTS CAPITAL

Carranza Forces Reoccupy Chihuahua City.

AMERICANS BELIEVED SAFE

Chinese Are Only Foreigners to Suffer—Juarez No Longer Feared Raid by Villa—Outlaws Flee to the Hills With Their Loot.

Juarez, Mex., Dec. 4.—Villa and his bandits, having looted Chihuahua City, have left for Western Chihuahua following trainloads of booty.

The reoccupation of the city by Carranza forces was announced in a telegram received by General Francisco Gonzales, brigade commander here, from General Ozuena.

No Americans have been killed in Chihuahua City by Villa, according to a private message received from that city. The message said that the only foreigners to suffer were the Chinese, for whom the bandits showed no mercy.

Many Villa followers, left behind, when the bandits started for the hills, were pardoned by Carranza officers when it was learned they had been pressed into service by the outlaw leader.

De Facto Back in Capital.

The forces of General Carlos Ozuena were the first to re-enter Chihuahua City and later General Francisco Murguía reached the capital after defeating a Villa column thirty miles south of the city.

Telegraphic communication with Chihuahua City over the federal line has been re-established. Communication also has been re-established with Torreón and Mexico City from the Chihuahua capital and the railroad has been repaired, trains operating as far south as Jimenez.

General Gonzales announced he will go to Chihuahua City with a part of his brigade as soon as transportation can be arranged. The fear of Villa coming to Juarez apparently has passed.

Six Carranza soldiers from the remnant of Trevino's command were seen on the streets here with their ears cut. Officers were said to have been even more terribly mutilated by the bandits.

MISSING "OSBORNE" FOUND

Man Who Impersonated Rich Lawyer Is Arrested in Chicago.

Chicago, Dec. 4.—Detective headquarters announced the arrest of a man who has admitted that he represented himself as James W. Osborne, a New York lawyer, in escapades with Miss Rae Tanzer, as a result of which misrepresentations Osborne was sued by her for \$250,000 in March, 1915.

The prisoner gave his name as Charles H. Wax.

Federal officials asserted Wax was wanted on charges of swindling women and that his victims numbered between 200 and 300 women whose money he was said to have obtained through promises of marriage.

DEFENDS WAR CONSCRIPTION

North Dakota Senator Would Draft "Less Commensurate."

Washington, Dec. 4.—Conscription in time of war is absolutely necessary, in the opinion of Senator P. J. McCumber of North Dakota.

"Whether we should make military training universal will depend a great deal upon what the result of the present war may be," he said.

"There is one thing, however which I think we should insist upon, if not upon military training. That is conscription in event of war. Volunteer service means the slaughter of the most patriotic, the bravest and best, leaving the less commendable to populate the world."

NEGRO HOLDS POLICE AT BAY

Philadelphia Black Murderer Finally Commits Suicide.

Philadelphia, Dec. 4.—Besieged by fifty policemen in a third-story room, where he had barricaded himself after murdering a woman with whom he had been infatuated and seriously wounding two policemen who tried to arrest him, Charles Westcott, a negro, held the attacking force at bay for two hours and finally committed suicide by shooting himself.

"Empties" Give Him Job.

Beloit, Wis., Dec. 4.—Parties of joy riders driving from Beloit, which is wet, back to their homes in Rockford, Ill., and other dry towns usually throw large numbers of bottles from their machines. Sterling Lovejoy, in search of pocket money, picks up as many as 400 bottles in a single day.

Stielow's Life Saved.

Albany, N. Y., Dec. 4.—The sentence of Charles F. Stielow, condemned to die in the electric chair for the murder of Charles D. Phelps, a farmer of West Shelby, Orleans county, in March, 1915, was commuted to life imprisonment by Governor Whitman.

LOBBY FOR KANSAS "KIDS"

Teachers Are Working for a Compulsory Kindergarten Law.

Emporia, Kan., Dec. 4.—A lobby for the youngsters of Kansas is going to be in evidence at the state legislature next session. It is to be directed by the teachers, and the object is the establishment of kindergarten schools in the state.

The present law provides that boards of education may establish kindergartens if they care to do so. Most of them have not shown any great zeal in their establishment. The teachers are working for an amendment to the law which will make it mandatory for boards to establish kindergartens whenever the parents of twenty-five or more children between the ages of four and six years, living within a mile of the public school, shall petition the board for a kindergarten.

WIFE FOUND SHOT TO DEATH

Minneapolis Man Held on Suspicion by Police.

Minneapolis, Dec. 2.—Paul Larpen, aged forty-nine, son of A. L. Larpen, St. Paul's oldest resident, is held at Central police station here while police investigate the death of his wife, found in their apartment.

Larpen claims he was aroused by a shot and found his wife dying, but admitted, according to Police Captain John Galvin, that they had quarreled because he had not provided a turkey for Thanksgiving.

The Larpens have been married twenty years and have lived in Minneapolis most of the time.

Use Rabbits for Sausage.

Austin, Tex., Dec. 2.—A plant for the manufacture of sausage from the meat of the Texas jack rabbit is to be erected soon and put into operation in West Texas, according to an announcement by Fred W. Davis, state commerce of agriculture. Promoters of the plant expect to handle most of the annual rabbit crop in their mill.

Hope for Oil King's Life.

Tarrytown, N. Y., Dec. 4.—Hope was expressed by his physicians here for the recovery of John D. Archibald, president of the Standard Oil company of New Jersey, who was operated on ten days ago for appendicitis, and since then has been dangerously ill.

Charity Customer Robbed.

Chicago, Dec. 2.—Charity agencies have lost a good customer. E. Silk told the police he was held up for \$200. They found his money in his pocket along with cards for free food, coal, clothing and other things.

CONGRESS TO TRY TO STOP STRIKES

Labor Troubles to Be Taken Up at Coming Session.

WILL BEGIN INQUIRIES.

Joint Congressional Commission and Independent Probes Will Be Conducted in Effort to Settle Difficulties Between Employers and Workers. "Cavaliers and Cowgirls."

By ARTHUR W. DUNN.

Washington, Dec. 4.—[Special.]—It is quite likely that a good portion of the time of the coming session of congress will be taken up with the consideration of measures to prevent strikes and labor troubles. Although members of congress who have in charge the legislation intended to further regulate the conditions between railroads and their employees assert that there is no difficulty which cannot be adjusted, there is a feeling of insecurity which shows that confidence is lacking.

Business men who have come to Washington have been very grave and have given intimations that the whole country may be involved in labor troubles within the next few months consequent upon the demands of working men and the efforts of the railroads to prevent the enforcement of the eight hour law.

Joint Commission Working.

Much stress has been laid upon the meeting of the joint congressional commission, but the prospects are that matters will come to a head long before that commission gets halfway through the mass of testimony which is to be taken. There will be a determination to get all the facts, and the average congressional commission in going after facts always admits three times as much immaterial matter in the form of testimony as it does facts bearing directly upon the points at issue. There is no doubt that the tendency will be to extend the inquiry beyond reasonable limits and make it ineffective.

Working Independently.

Nothing that the labor troubles are imminent and that it will be impossible to settle them by the joint commission inquiry, it appears that men in both houses of congress will work independently and seek a solution by a short cut in order to prevent what many believe to be serious conflicts between workmen and their employers.

Possibly there are more clouds in the sky than the real situation warrants, but the activity of those whose duty it is to seek methods of prevention of strikes shows that there is fear of trouble.

"Cavaliers and Cowgirls."

Here is a Republican's wall anent the recent election: "The cavaliers of the south and the cowgirls of the west won the election for the Democrats." He wanted to be alliterative and also somewhat sneering. Possibly the women of the west would laugh at the designation. It is true that many of them do ride and live the open, joyous life of the west. But they have the laugh on their side, for the women of the west certainly won the election.

Lodge Praises Sutherland.

Senators more than others regret the defeat of Sutherland of Utah, for they know his value as a member of the senate. "My own success," remarked Senator Lodge, "and the satisfaction I feel in re-election are marred by the defeat of Sutherland. He was one of the most valuable men in the senate."

First Time in a Hundred Years.

Do the people know that one feature of the last election was the first in 100 years? It is the first time in a century that a president and a vice president have been re-elected together. In 1816 James Monroe and Daniel D. Tompkins were elected president and vice president, and four years later both were re-elected. Not since that time have both offices been held by the same men for eight years at a stretch.

Ran Ahead of Hughes.

In nearly every state in the Union—that is, the northern states—it is found that Republican candidates for governor and senator and other state offices ran ahead of Hughes by many thousands. In fact, if Hughes could have kept pace with the Republican state tickets he would have been elected.

But there are instances where men ran behind Hughes. Quite a number of Democratic congressmen have come to Washington and told their friends with considerable pride that they "ran ahead of Wilson" in their districts. That is a great distinction this year, for the pace which Wilson set in the recent campaign was very swift.

Not Much Chaffing.

There will not be much chaffing among members of congress when the session convenes. The success of the Democrats was by such a small margin as to make crowing over victory somewhat ridiculous. Then the question as to who will control the house remaining in doubt does not afford either side an opportunity to make boasts. Of course the Democrats are feeling pretty good even if they did squeeze through with the presidency, but it was so close that they can't crow over their rivals.

ELKS REMEMBER ABSENT BROTHERS

(Continued from page 5)

the bishop. "It asks not your name. Your name is my brother."

The speaker traced life as a brook running through trees and bending flowers, on through meadows and down to the broadly flowing river where it joined the seas. Much work was to be done and the hours were short. Eyes and hands should be trained. One cannot get enough out of life while desolation is around. He traced youth with its bright prospects, then the autumn with its circle of friends broken into and only the memory of happy days remaining, the sun not rising with us, but setting ahead and throwing its shadows ahead.

"What makes us forget sorrow and disappointment and helps us live without jealousy and regret?" asked the speaker.

"It's Elkdome that uplifts humanity. It stands for the best in American life. It quickens American patriotism. We worship at the shrine of the flag."

Loyalty to country was a requirement to become an Elk, also, a belief in the existence of a supreme being.

McCormick paid a tribute to the mothers, to them we owed all we are or ever hope to be. There was no courage comparable with that of a mother caring for her children. The future of a child depended on its mother, the future of the world on its mothers.

What mother love exercised in the moulding of the character of Abraham Lincoln, best loved of all Americans, was illustrated in his acts and deeds. The heart of his mother was beating in unison with his when he issued his epochal proclamations.

In closing, the speaker pleaded for that helpful spirit which takes a brother by the hand when he falls, which lives in seeking to fulfill the obligations of the order, which shows its gratitude for the past and its appreciation of the future.

The Elks quartet, S. F. Alderman, A. C. Mraz, Roland Jenkins and George E. Coutu, sang a selection, vibrant with deep feeling and sympathy. Their voices blended beautifully. Then came the closing ode, "Home Sweet Home," the soft benediction by Rev. Stacey and the professional played by the orchestra.

The memorial committee included J. J. Nolan, F. S. Parker, Judge J. T. Sanborn, R. R. Gould, A. C. Mraz and J. C. Higbe.

The ushers were Clyde E. Parker, Dr. H. E. Murphy, Arthur Drogseth and V. C. Roderick.

TALKS ON THRIFT

Bridges and Bank Accounts, Both Built for Use, Not for Ornament.

You cannot cross a bridge until you come to it, but you can't cross the river without it. The great bridges that span the Niagara river may be of little use to the New Yorker, but when he wants to go to Canada he finds them a necessity.

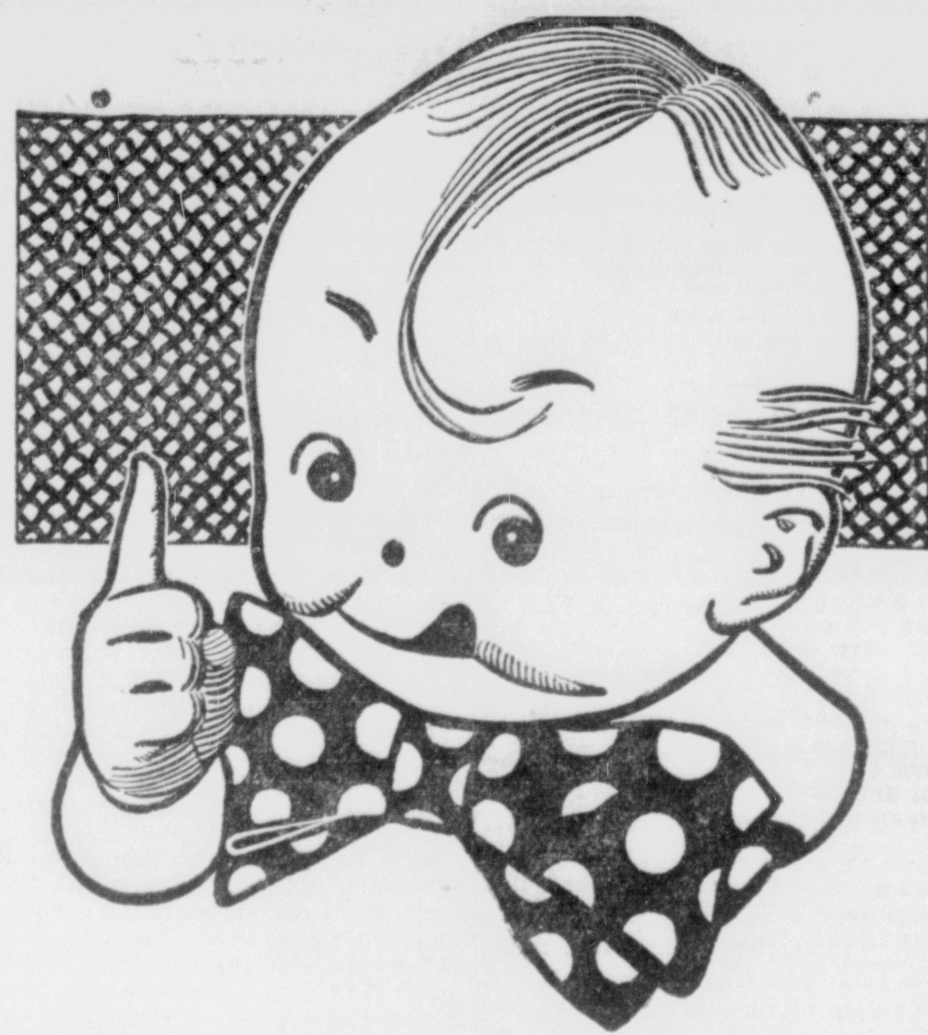

Every successful life is built upon the proposition of preparedness. The man who refuses to acknowledge the fact that some day he will be in need, is going to find himself in a serious predicament when he least expects it. The great trouble with many men and women is they live from day to day, with no thought of tomorrow. Today's earnings are spent as soon as earned—or before. Much of the world's poverty is due to this hand-to-mouth existence. We get into debt and never get out. We get behind and never catch up. We run bills until the butcher and the grocer go broke trying to pay our way for us.

A certain father lost his son unexpectedly. He had no money saved up. He lived as he went, never expecting such a happening. He appealed to his bank to carry him over the time of need, and was granted a loan, more out of pity than out of respect for his credit. But he should have built the bridge for himself long before the time of need came.

We rarely stop to appreciate how helpful the bank is until we need assistance, nor grasp the fact that if somebody had not been thrifty and anticipated the time when financial bridges would be needed and banked their money, we would often be in a sorry plight.

Banks are built on the savings of the thrifty. They lend to the merchant, manufacturer and individual, both as a business proposition and as a matter of courtesy in time of need; but it is a sad commentary on our method of life, if when the time of need comes, we must literally beg the banker, or a friend, to tide us over the time thrift would have anticipated and prepared us for.

Money is not the sum total of human existence, but it goes a long way towards making life, no matter how hard it may be in other respects,

pleasant. Every man knows that health is a delicate thing; that sickness, accident or loss of employment is liable to come at any time—and it is sure to come to us all sooner or later—and no one but a fool will defy all the laws of nature, all the advice of men and experience of the past, and refuse to acknowledge the necessity of preparedness.

Bridges were never meant for ornaments; they were meant for use. They start somewhere and get somewhere. They are meant to carry loads. A bank account is a mighty good bridge. It will tide you over many a troublous stream, and see you safely on the other side; but many men must flounder around in the currents of adversity, tossed hither and yon, before they will acknowledge the truth and begin to get ready. If everybody did as some people do, spend the dollar as fast as it is earned the human race would fast go to destruction.

Every man who earns should save. Every woman, no matter how safe may be her lot now, should look the future in the face and see if she were left alone could she manage single handed to make the world give her an existence.

You cannot cross the bridge until you get there, that is certain; but you can build the bridge that you surely will need some day, and lucky for you if you have the bridge and can use it, and still more lucky if it is there and you never need use it, but you can be safe either way.

Men Feel Tired, Too

While much is said about tired women it must be remembered that men also pay the penalty of overwork. When the kidneys are weak, inactive or sluggish, when one feels tired out and miserable, has the "blues," lacks energy and ambition, Foley Kidney Pills are tonic and strengthening. They act quickly. No Doubt About This

Foley Cathartic Tablets are just a plain, honest, old-fashioned physic. They act promptly and effectively on the bowels without pain, griping or nausea. They keep the stomach sweet, the liver active and the bowels regular. They banish biliousness, sick headaches, sour stomach, indigestion. H. P. Dunn, druggist.—Advt. mwf

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of Limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.
